Premature labour in contracted pelvis induced by means of, 398
Bossi's method, on rapid dilatation of the cervix by, 397
Breast-nursing by women in factories, 241
British Gynæcological Society, 78, 181, 413, 474
Burns of the mamma and lactation, 65

Cæsarean section in cases of contracted pelvis, 411
At full term for complete obstruction by fibroid tumour, 438
Repeated, 463
For myasthenia gravis, 476
Calculus, on vesical, 334
Cancer of the body of the uterus, 76, 261
Of the Fallopian tube, a table of over 50 complete cases of primary, 285
Of the cervix, complicating labour in advanced pregnancy, three cases of, 421, 473
Of both ovaries, 480
Carcinoma of the vagina, primary, 73
Of the ovaries, primary, 76
Fibroids, and, 255
Cervicis Uteri, complications arising from freeing the ureters in the more radical operations for, 178
Cervicis Uteri and the bladder, the relation between, 326
Cervicis Uteri and the rectum, the relation between, 328
Cardiopathy of uterine fibromyoma, the, 107
Catarrh, cervical, new technique in the treatment of, 253
Cervix and orifice of the womb during pregnancy and labour, the instrumental dilatation of the, 191
In obstetrics, rapid mechanical dilatation of the, 313
On rapid dilatation of the, by Bossi's method, 397
Cervix, three cases of cancer, complicating labour in advanced pregnancy, 421, 473
Champetier de Ribes' bag, inversion of the uterus and its treatment by the application of, 458
Childbirth, on mental disturbances in pregnancy and, 57
Childhood, gonococcal infections in, 408
Children, condition of the endometrium in gonorrhœal vulvo-valginitis in, 325
Chorio-epithelioma in men, two cases, 75
Following tubal pregnancy, 249
Colporrhaphy by Sänger's method, technique of, 332
Complications and degenerations of uterine fibromyomata, 172
Congestion, primary uterine, in neuro-arthritic patients, contribution to the study of, 175
Contraction, pelvic, the ultimate results of induced labour for minor degrees of, 340
Corpus luteum, further communications on the function of the, 66
The pathology of the, 243
Cyst, large mesenteric, 82
Spontaneous rupture of an ovarian under chloroform, 242
Of ovary, dermoid, 474

Cysts, accessory Fallopian tubes and their relation to broad ligament, 181, 212
The cytology of papilliferous ovarian, 245
Cystoma, huge ovarian, 242
Cytology of papilliferous ovarian cysts, the, 245
Of the liquor amnii, researches on the, 466

Degeneration, cystic, of the ovary, 171
Dilatation of the cervix in obstetrics, rapid mechanical, 313
Dilatations, venous, in the gravid uterus, 390

Ecarteur uterin, Tarnier's, and its use, 61
Eclampsia, clinical study of, 53
Hereditary, 54
Occurring in a multipara, three attacks of, 224
Treated by thyroid extract, case of puerperal, 386
Treatment of, by thyroid extract, 396
Hydatid mole and, 396
Lumbar puncture in, 457
Edinburgh Obstetrical Society, 83
Embryomata, two solid ovarian, question of malignancy, 68
Endometrium in gonorrhœal vulvo-vaginitis of children, condition of the, 325
Exploration in suspected malignant disease of the ovary, plea for, 1

Factories, on breast-nursing by women in, 241
Fallopian tube, a case of primary Hydatid disease (Echinococcus) of the, 19
Tubes, accessory, and their relation to broad ligament cysts and hydrosalpinx, 181, 212
A table of over 50 complete cases of primary cancer of the, 285
Free bodies in the, 330
Female meatus urinarius, a study of certain morbid conditions of the, 355
Fibroid of the broad ligament, 474
Of abdominal wall, 478
Fibroids complicating pregnancy, 76
Before the menopause, disappearance or "absorption" of, 141
And carcinomma, 255
Ovarian disease associated with, 474
Uterus containing numerous, 475
Fibroma of the ovary, 257
of the uterus, removed by supra-vaginal hysterectomy, an unusual case of, 448
Fibromyoma, the cardiopathy of, 107
Associated with cystic disease of the same ovary, 256
Fibro-myomata of the uterus, malignant uterine complications of, 83, 120
Complications and degenerations of uterine, 172
Influence of, on pregnancy and parturition, 481
Fistulæ following hysterectomy for carcinoma cervicis uteri, vesico-vaginal, 452
Fontanelle, posterior, variations of the 256

Galvano-cautery, 474
Gangrene of the leg after abdominal hysterectomy, 181
Genitalia, on congenital and acquired atresia of the female, 251
Glasgow Obstetrical and Gynæcological Society, 81, 479
Goitre, salpingo-oöphoritis treated by operation followed by disappearance of exophthalmic, 182

Hæmatoma, puerperal, tardy development of a fatal case of the vagino-vulvo-perineal type, 169
Hæmorrhage, styptol in uterine, 349
A case of concealed accidental, 446
Head, external pressure in presentations of the, 63
Note on a new method of estimating the relative sizes of the maternal pelvis and the fœtal head, 227
Heart disease with pregnancy, 35
Hebotomy, 399
Hernia, prevention of post-operative ventral, 78
Diaphragmatic, 83
Ventral, 417
Histo-pathology of chronic oöphritis, on the, 70
Hydatid disease (echinococcus) of the Fallopian tube, a case of primary, 19
In the pelvis, 77
Hydatids of, or connected with both ovaries, right broad ligament, liver, omentum, mesentery, and other parts, 26, 77
Hydrosalpinx, 82
With torsion of the tube, 247
Hyperemesis gravidarum, on the ætiology of, 162
Hysterectomy, gangrene of the leg after abdominal, 181
And acute puerperal infection, 343
For carcinoma cervicis uteri, vesico-vaginal fistulæ following, 452
Hysteropexy, effect of, upon subsequent pregnancies, 168
On pregnancy, the influence of, 388

Icterus and pregnancy: clinical observations, 391
Index Obstetricus, 87, 346
Indications and results of secondary operations, 454
Induction, medical indications for, 80
Methods of, 80
Infections in abdominal surgery, employment of warmed horse serum against, 337
In childhood, gonococcal, 408
The systematic employment of a continuous stream of oxygen gas in cases of abdominal, 410

Inversion of the uterus, acute: spontaneous reposition, 209, 257
Irritability of the central nervous system, specific, 161

Kraurosis vulvæ, the ætiology of, 253

Labour, the ultimate results of induced, for minor degrees of pelvic contraction, 340
In contracted pelvis induced by Bossi's dilator, premature, 398
And the puerperium, extirpation of the uterus in connection with, 465
Lac vinum infantum: a review of the work of infant milk depôts, 403
Lactation, burns of the mamma and, 65
Appendicitis and salpingitis occurring during, 247

Obstetrical Society of London, 76, 225, 411, 473
Oöphoritis, on the histo-pathology of chronic, 70
Operations, indications and results of secondary, 454
Ovarian condition, an unusual, 451
Ovaries, right broad ligament, liver, omentum mesentery and other parts, Hydatids of, or connected with, 26
Primary carcinoma of the, 76
Sclerosis and cirrhosis of the, 216
In a case of hydatidiform mole, incarceration of cystic, 394
Ovariotomy at the commencement of pregnancy, donble sided, 455
Ovary, plea for exploration in suspected malignant disease of the, 1
And tube, 82
Cystic degeneration of the, 171
Fibromyoma associated with cystic disease of the same, 256
Fibroma of the, 257
Dermoid cyst of the, 474
Carcinoma of the, 474
Ovum, are internal and external wandering of the, possible, 406
Oxygen gas in cases of abdominal infection, the systematic employment of a continuous stream of, 410

Paralyses, the pathogenesis of obstetrical 469
Paralysis in pregnancy, 158
Pathogenesis of obstetrical paralyses, the, 469
Pelvis, hydatid disease in the, 77
And foetal head, note on a new method of estimating the relative sizes of the maternal, 227
Cæsarean section in cases of contracted, 411
Perforations of the uterus, accidental, 71
Perivaginitis, phlegmonous dissecting, 450
Placenta, in syphilis, the, 468
Placenta prævia, 220
Pregnancies, the effect of hysteropexy upon subsequent, 168
Pregnancy, heart disease with, 35
Sextuple, 52
Pyelonephrosis and, 55
Mental disturbances in, 57
Solid tumour of the ovary in, 57
Rupture of membranes without interuption of, 59
Fibroids complicating, 76
Extra-uterine, 81
Spontaneous rupture of uterus during, 82
Pregnancy and labour, ovarian tumours during, 132, 183
Primary full-term abdominal, 156
Paralysis in, 158
Pyelo.nephritis in relation to, 159
"Specific irritability" of the nervous system in, 161
An unusual accident to a fibroid tumour of the uterus complicating, 175
And labour, the instrumental dilatation of the cervix and orifice of the womb during, 191
Study of a specimen of ovarian, 232
Psychosis of, 237

Myoma and, 238
On the "reflexa" in tubal, 248
Case of chorioepithelioma following tubal, 249
